POSTER PRESENTATIONS

A stylized graphic in the center of the page depicts a person's silhouette in profile, facing right. The figure is composed of white outlines. Overlaid on and around the figure are several thick, light-colored, curved lines that resemble ribbons or paths. These lines form loops and curves, with some ending in arrowheads. One large arrow curves from the top right towards the center, another from the bottom right towards the center, and a third from the left towards the center. The overall composition is dynamic and suggests movement or a complex process.
